A Note from Dr. Troxell:

Thank you to all students, parents and family members, faculty members, and community supporters for a successful 2015-16 school year! We are proud of the numerous accomplishments of our students and we wish the Class of 2016 the very best as they embark on their work, military service, and college careers.

I'd like to take the opportunity to thank Mr. Nathan Robson and the staff of nTelos (now Shentel) for their generous donation to our school emergency kit. The kit now has a cell phone and iPad due to their commitment to providing us with critical communication tools in the event of an emergency on or off-campus. WMHS is fortunate to have many community members and business partners that support us in numerous ways. This support and generosity is greatly appreciated.

As we move into summer, please be reminded that the 2016-17 school year will be visible in Portal after July 22nd. Student schedules will become accessible in Portal beginning August 5th at 8:00 a.m. Student Portal will be enabled on or around August 9th. If you do not yet have a Parent Portal account, the next activation date will be July 11th and then every Monday in August. Progress reports and report cards will not be printed next year, so it is important that all parents have a Portal account.

Please stay tuned to the WMHS website for information regarding the fee payment and Back-to-School Night schedules. Enjoy your summer!

Sincerely,
Kelly F. Troxell, Ed.D.
Principal

CLINIC NEWS

As a reminder, per ACPS medication policy, students are allowed to carry a 1 day dose of over the counter medication in the original bottle. This is strongly encouraged as you plan for 2016-2017 school year.

Please pick up all medication before the last day of school, **June 8**. This includes prescription and over the counter medication. Medication left in the clinic will be disposed of appropriately.

Seniors who will be living in a dormitory may need specific vaccines. It is wise to check to see if your students is covered; specifically meningococcal vaccine (meningitis) is almost always required.
