

Important Information Regarding the Start of School

More information will follow prior to the beginning of on-site classes

1. The first day of classes will now be **September 1st**.
2. We will now follow the A/B modified schedule that is being assigned by your high school. Augusta County virtual students will be contacted by student services or your teacher to let you know your schedule. *Monday is still a virtual day.*
3. We will *begin* the school year with ***students only attending classes 2 days a week***. Virtual work will be provided for days they do not attend. Students are expected to keep up with virtual work and complete the work per the teacher's expectations.
4. Students and Adults will be **required to wear face masks** in classrooms, hallways, restrooms, office and lab areas **at all times**. We are currently working on establishing mask breaks.
5. Students driving or being dropped off at VCTC are to report to Building 1, Door 1 for a daily health screening before entering the building. All students riding the bus will have a screening at their home high school.
6. Parents who have NOT received their portal activation key, please call the school and speak to an administrative-assistant.

Thank you in advance for your cooperation and assistance as we return to school under these COVID-19 guidelines.
