Overview

Shenandoah Valley Governor’s School (SVGS) is an Academic Year Governor’s School sponsored by the Virginia Department of Education. SVGS has programs and courses designed to meet the needs of gifted and highly motivated students.

SVGS provides a unique environment in which individuals explore the interconnections between technology and (1) mathematics and sciences or (2) the arts and humanities.

Students may attend in one of several broad curriculum areas:
- Sciences (science, mathematics, technology and engineering)
- Arts & Humanities (humanities, visual and performing arts)

SVGS opened its doors in the fall of 1993 to 95 students in a specialized STEM program. In 2002, SVGS expanded its mission to include visual arts, theatre arts and humanities courses.

Community of Learners

Community
- SVGS serves Augusta County, which is geographically the second largest county in Virginia, and the two independent cities of Staunton and Waynesboro.
- The region is primarily rural with agriculture as its economic base. Estimated median household income in the region for 2012-2016 was $56,802 with 23.3% of area residents having completed a Bachelor’s degree or higher (U.S. Census, 2017).

Students
- SVGS students are selected through a competitive admissions process based on multiple criteria such as academic performance, talent, interests, and teacher recommendations.
- Admissions is offered to approximately 65% of all applicants.
- Juniors and seniors from seven public high schools in Augusta County, Staunton, and Waynesboro attend this shared day, selective regional school. Student attend SVGS in the morning and their base schools in the afternoon.
- For 2019-2020, 175 students are enrolled in the Sciences program and 58 students are enrolled in the Arts and Humanities program which represents about 7% of the area’s total high school junior and senior enrollment.

Staff
- 93% of SVGS instructors have a Master’s degree or higher.

SVGS Class of 2018 Graduate Profile

96% of the SVGS Class of 2019 matriculated to a 4 year college. The SVGS Class of 2019 matriculated to these colleges and universities:

<table>

### Rigorous, Enriching Courses

**Arts and Humanities***
- Humanities I, II (DE)
- Communications (DE)
- Psychology (DE)
- Sociology (DE)
- Western Culture (DE)
- Studio Art I, II
- Acting I, II
- Intro to Theater (DE)
- Drama, Theory & Critique
- Crafts & Skills I, II

**Sciences**
- Intro to Scientific Research
- Chemistry (AP)
- Environmental Chemistry (DE)
- Environmental Science (AP)
- Molecular Biology (DE)
- Modern Physics
- Physics (DE)
- Advanced Calculus-Multivariable
- Calculus BC (AP)
- Calculus (DE)
- Discrete Math (DE)
- Math Modeling
- Pre-Calculus
- Statistics (DE)
- Advanced Technology
- Computer Science (AP)
- Computer Networking & Security
- Engineering I
- Engineering II
- Geospatial Information Systems (DE)
- Intro to Computer Science

*Arts and Humanities students typically take 4 classes in each of the following areas: humanities, studio/performance, history/appreciation, and crafts and skills with guest artists. Humanities I and II meet English credits requirements for graduation.

**STEM student typically take 3 classes in each of the following areas: mathematics, science and technology. First year students must take either Scientific Research or Engineering. Second year students may take 4 classes or multiple classes in the same area (i.e. 2 science classes) pending their interest and needs.

- All SVGS classes are year long classes and are taught at an advanced/college level.
- SVGS classes are designated as “GS” on the student’s official transcript and are weighted one quality point in the student’s GPA at their base school.

### Practical, Professional Experiences

**ARTS & HUMANITIES**
The Arts and Humanities program utilizes an extensive *community campus* to offer students experiences in professional spaces with professional artists and artisans. Arts and Humanities students participate in multiple performances and exhibits throughout the year.

**SCIENCES**
All first year Sciences students must complete an independent research or engineering design project. Students may choose a project in any area of science, math or engineering. Research and engineering teachers facilitate these projects and students are mentored by the school’s STEM staff. If additional expertise is needed, community mentors are used to support the student’s specific research or engineering interest.

**SVGS SENIOR CAPSTONE**
Each SVGS program graduate must also complete an independent capstone project.

The senior capstone project is a long-term project embedded in a specific aspect of the curriculum whose intent is to encourage students to reach beyond their academic work, extending and enhancing the traditional school experience outside of the classroom.

The purpose of the project is to allow students to further engage in areas related to student’s career interests, and to apply academic and professional skills through authentic learning experiences. Student projects may be focused on service learning, mentorship or independent research.
